Welcome to  
Tracker and other  
new features in  
IntelliConnect™

# Make Tracker your own

Tracker is the new daily alerting service from CCH that puts you in control. Tracker enables you to receive updates on news and developments in your chosen area of practice as either an RSS feed or email or via your CCH IntelliConnect™ subscription.

## How to get Tracker started

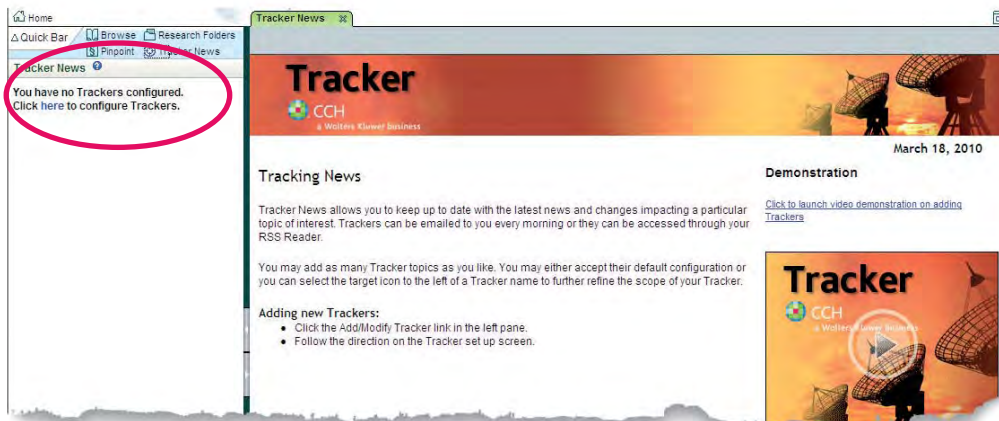

All you have to do is activate your Tracker and it's ready to go.

Make Tracker yours by following these four simple steps.

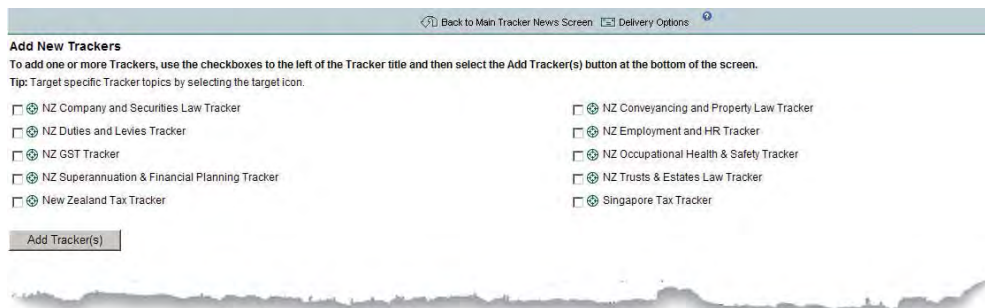

- 1 Log in to IntelliConnect™ with your existing CCH login.  
This could be via either **www.cch.co.nz** or your fixed IP address.

If you are a print or CD customer and do not have an IntelliConnect™ login, simply call customer services on **0800 500 224** or send an email to [nzsales@cch.co.nz](mailto:nzsales@cch.co.nz) and ask to be set up for the Tracker news service(s) attached to your subscription(s).

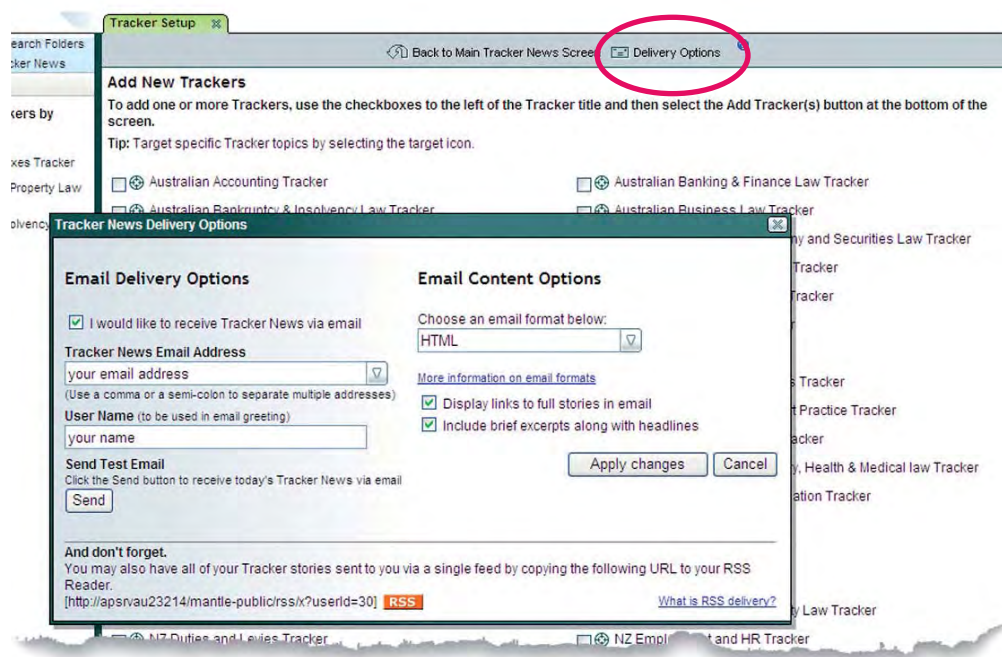

- 2 Once you are logged in to IntelliConnect™, click on the Tracker icon and click "Click here to configure Trackers".

- 3 To add Trackers, choose from the list on your screen and check the boxes for the Trackers that you would like to activate. When you are finished, click on the "Add Tracker(s)" button at the bottom of your screen.

- 4 Click on “Delivery Options” and choose the format you would like to receive Tracker in. Click on the “Apply changes” button when you are finished. To go back to the main screen, click on “Back to Main Tracker News Screen”.

## And that's it! You have activated your Tracker!

You will now receive Tracker alerts in the format you have selected.

If you would like to receive Tracker news in IntelliConnect™, you don't need to do a thing. You will see the Tracker icon when you are signed in to IntelliConnect™. Simply click on this icon to access Tracker each time you wish to view the latest alerts.

## Changed your interests? Change Tracker!

Edit your preferences at any time during your CCH subscription — simply log in to IntelliConnect™, click on the Tracker icon and select your new Tracker preferences from the “Add/Modify Tracker” link.

It's as easy as that!

Now you control the news.

# New IntelliConnect™ features!

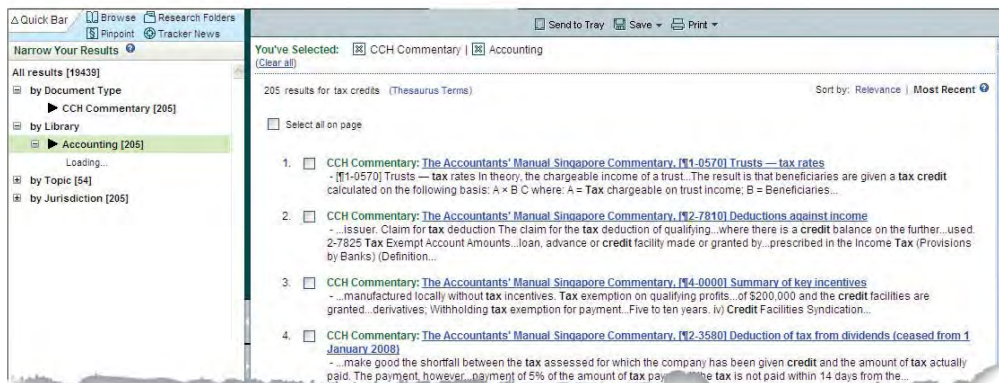

We don't do things by halves at CCH and are always working to make IntelliConnect™ easier and more useful to your workflow. Here are some of the new features that are now available to you.

## More search tabs = more research!

Open up to eight tabs at any one time. These can be a combination of Searches, Pinpoint, Research Folders, Document Trays, Browse Trees, and/or Pinpoint Tabs.

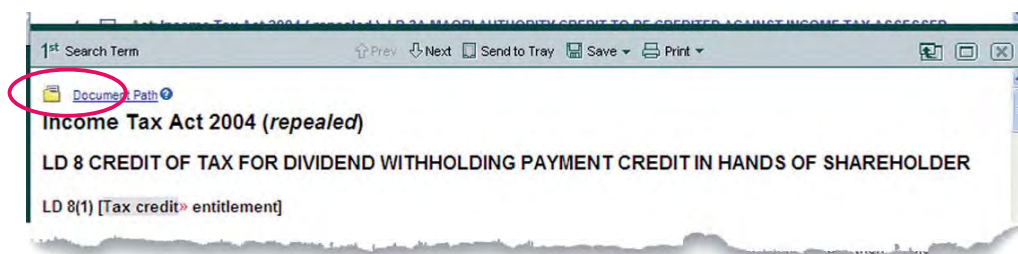

## New ways to filter documents!

All filters can now be applied on top of one another, as Cross Filters. For example, you can choose to search for just Commentary information from a specific library. This allows you to get the answers in plain English, fast and without having to sift through legislation, cases and other Document Types.

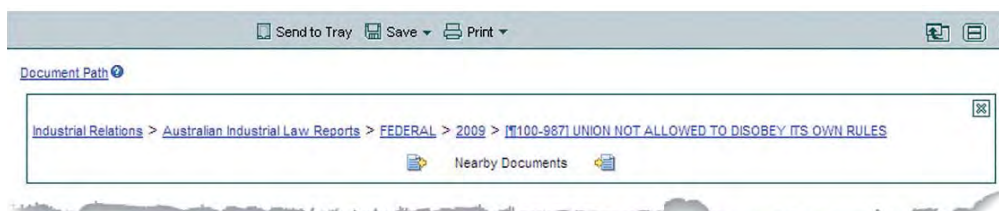

## Identify a document you have already saved

If you view a document that has already been saved into a research folder, you can click on the folder icon to go directly to the document in your Research Folder.

## What's happening nearby?

Click on the "Nearby Documents" links to view the next and previous documents in the chapter.

## Move through search results faster!

Easily view the next or previous search item in your results list.

## Other updates include:

- You can view the location of the document in your library. Click on "Preferences" and select the check box "Show Document Path Box open by default".
- The preferences tab now displays the date and time in either New Zealand or US formats.
- You can now view the interface and IntelliConnect™ menu in Chinese as a language option. Note: Document text will remain in English.
- There is a new "Collapse all" button in your Browse Tree.

**For a demonstration, please call 0800 500 224.**
